INFO:

**SUGGLE designs, brands and
produces promotional items.**

Very useful.

A lot of function and emotion, please!

Our heart beats for good, honest and effective marketing. With over 15 years of experience in the marketing and human resources industry, we have conceived, designed and accompanied communication projects, mailings and recruiting campaigns for B2B and B2C companies. We have also actively supported research projects on advertising effectiveness. We can therefore state with absolute confidence:

„Haptic advertising media plays a very decisive role in the communication mix of brands and employer brands.“

However, the decisive success factors must be taken into account. Effective solutions are one thing above all: they are **intelligent!** It is not decisive whether an item is particularly expensive or whether it is „never seen before“ with all its power. What matters is that it makes sense for the recipient. Meaning can make sense of something if it has a **functional** and/or **emotional** component. So we always keep that in mind!

what does
suggle
mean?

[to]
suggest

...

SUGGLE is a neologism inspired by the English word „**to suggest**“. This describes the main benefit of the SUGGLE brand: We ask, listen and then develop suggestions and ideas for the useful and sustainable use of promotional items – completely individual.

SUGGLE thus brings out the best for you!

The mere procurement of advertising material is not a special art these days. The desired give-away is only a mouse click away. But the oversupply, especially on the Internet, is becoming a dilemma - above all it costs a lot of time in the end. Therefore we offer the special SUGGLE service for classic promotional items and giveaways.

WE SUGGLE ...

- 1 through the wide range of promotional items and only supply a filtered selection of high-quality products that fit exactly into your (employer) brand concept.
- 2 the best procurement channel, by avoiding the artificial extension of the value chain through the numerous middlemen and consolidating purchasing from the manufacturers in the best way possible.
- 3 a unique branding, which convinces through design, pun or fancy advertising.

WE RELY ON
SUSTAINABILITY!

In the CSR overall assessment to environmental, labour and human rights issues SUGGLE is located in the upper 1% of all companies in the industry evaluated by EcoVadis!
