Lots of spring!

Nest warmth at a distance

When people enjoy working together, it is noticeable in the result. And without exaggerating: We like our job, love good ideas and are proud of great results – that at the same time we are having a good time, should be quickly noticeable!

SUGGLE brings out the best for you!

SUGGLE makes the difference because our heart beats for good, honest and effective marketing. With over 15 years of experience in the marketing and human resources industry, we have conceived, designed and accompanied communication projects, mailings and recruiting campaigns for B2B and B2C companies.

The pure procurement of advertising materials is no longer an art these days – at least this impression is created with regard to the oversupply of the always same products without recognition value. Our claim differs in its core: We find exactly the right promotional items for every company, which are characterized by functionality and a lot of emotion. No run-of-the-mill products, but high-quality articles, that will remain in the memory of your customers and business partners.

what does
suggle
mean?

[to]
suggest

...

SUGGLE is a neologism inspired by the English word **“to suggest”**. This describes the main benefit of the SUGGLE brand: We ask, listen and then develop suggestions and ideas for the useful and sustainable use of promotional items – completely individual.
